DETAILED ACTION

Papers Received

1. Acknowledgment of receipt is made of the applicant's Information Disclosure Statements, received on January 5, 2002 and April 15, 2002. Acknowledgement of receipt is also made of the applicant's Amendment A, received on April 15, 2002.

Response to Arguments

2. The applicant's response has overcome the previous office action. The examiner withdraws the rejection under 35 U.S.C. 103(a) over Gao *et al.* in view of Lai *et al.* and Delgado, III *et al.*

3. Applicant's arguments with respect to claims 1, 3, and 5-18 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1615

The claim is confusing due to the language "to a fasting subject provides a time course of blood serum concentration of valdecoxib having a time to reach a concentration of 20 ng/ml not greater than 0.5 h after administration." The claim is directed to a composition *per se*, which would require the future delivery of the minimum of 20 mg. Clarification is requested as to the amount of valdecoxib in the particulate formulation. Do the applicants permit 20 mg/ml in the pharmaceutical composition?
